

How many bags of feed does it take to raise BROILERS?

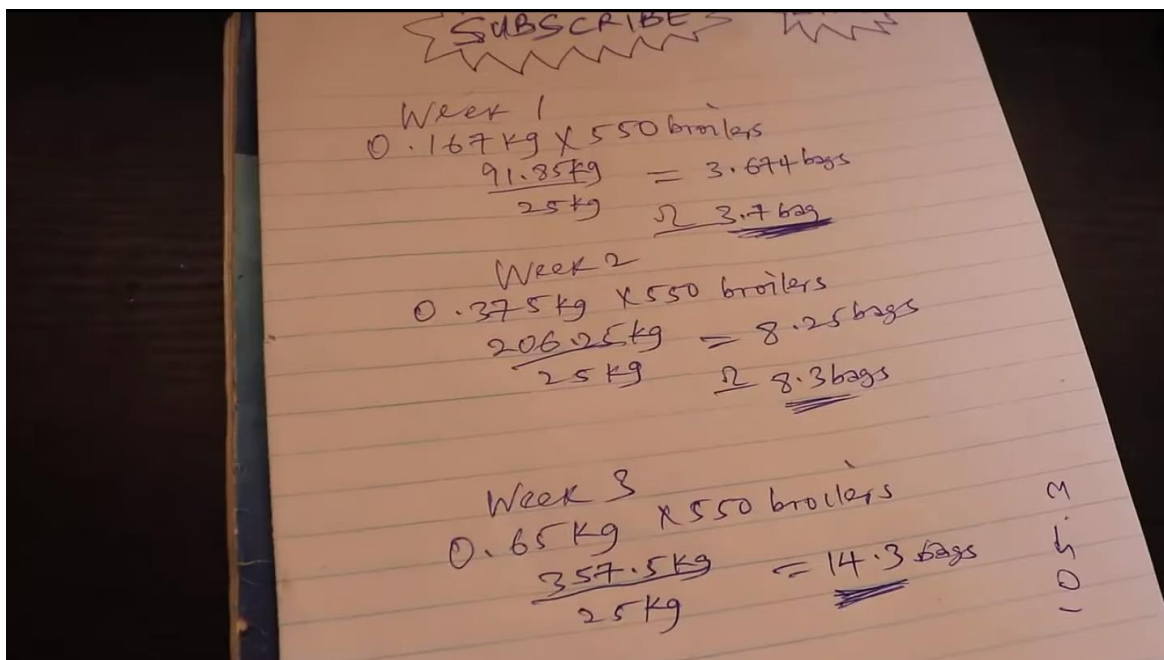

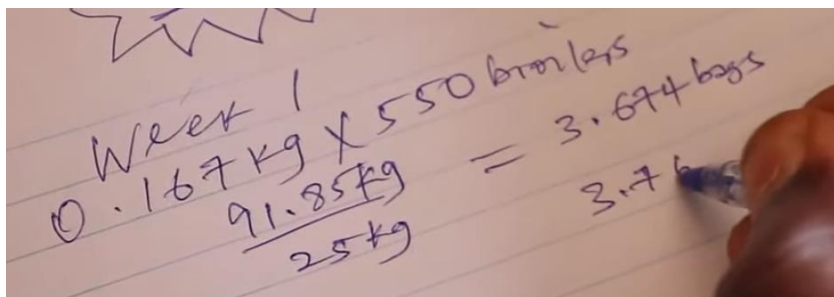

Farm's Diary

21K views • 5 months ago

We will stock 550 broilers for the next 6 weeks and sell after then for xmas.

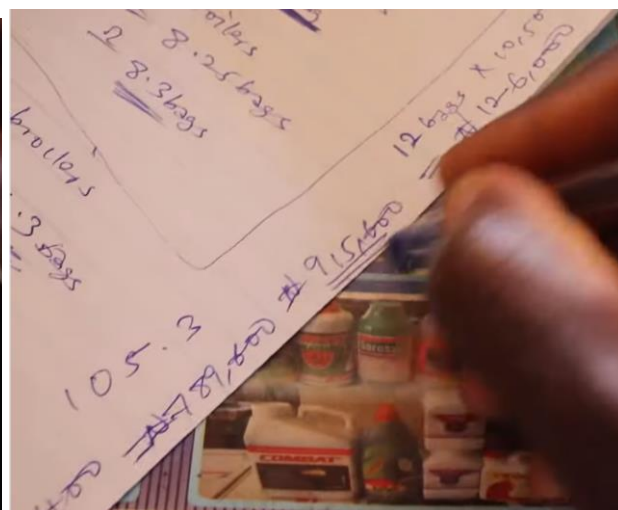

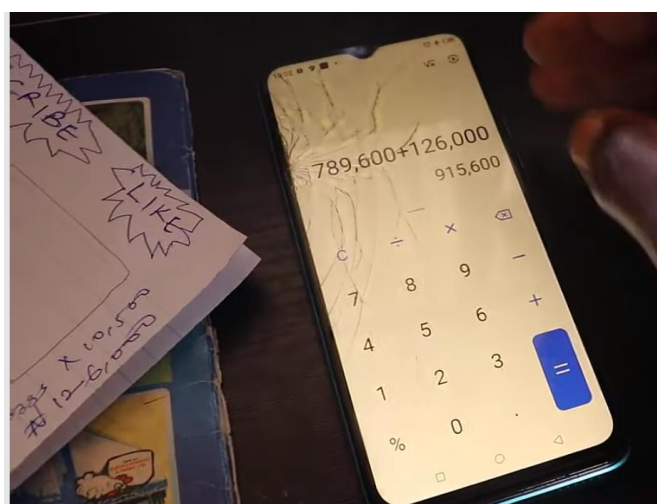

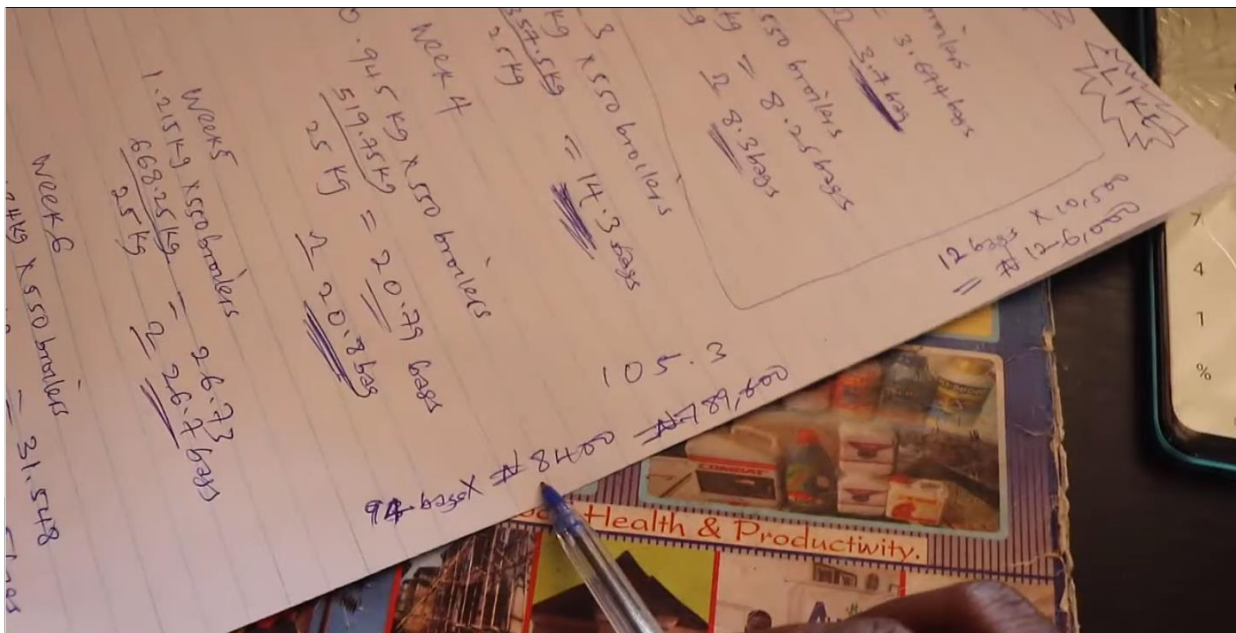

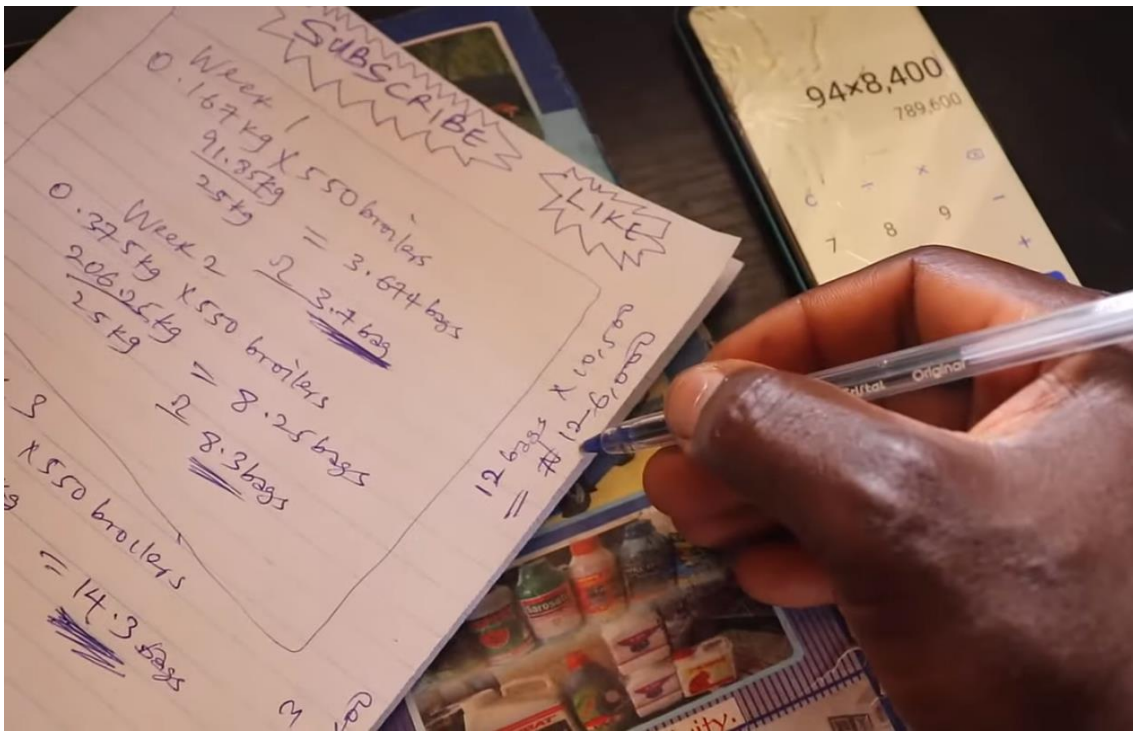

We will be doing calculation for 1 single broiler feeding over 6 weeks in terms of the feed in kilograms. Bags of feeds in Nigeria are in 25kg bags.

12 bags x 10,500
 = 126,000

Week 3
 0.65 kg x 550 broilers
 $\frac{357.5 \text{ kg}}{25 \text{ kg}} = 14.3 \text{ bags}$
 Week 4
 0.945 kg x 550 broilers
 $\frac{519.75 \text{ kg}}{25 \text{ kg}} = 20.79 \text{ bags}$
 $\approx 20.8 \text{ bags}$
 Week 5
 1.215 kg x 550 broilers
 $\frac{668.25 \text{ kg}}{25 \text{ kg}} = 26.73$
 $\approx 26.7 \text{ bags}$
 Week 6

Week 5
 1.215 kg x 550 broilers
 $\frac{668.25 \text{ kg}}{25 \text{ kg}} = 26.73$
 $\approx 26.7 \text{ bags}$
 Week 6
 1.434 kg x 550 broilers
 $\frac{788.7 \text{ kg}}{25 \text{ kg}} = 31.548$
 $\approx 31.5 \text{ bags}$

Week 1
 $67 \text{ kg} \times 550 \text{ broilers}$
 $\frac{91.85 \text{ kg}}{25 \text{ kg}} = 3.674 \text{ bags}$
 $\approx \underline{\underline{3.7 \text{ bags}}}$

Week 2
 $37.5 \text{ kg} \times 550 \text{ broilers}$
 $\frac{206.25 \text{ kg}}{25 \text{ kg}} = 8.25 \text{ bags}$
 $\approx \underline{\underline{8.3 \text{ bags}}}$

Week 3
 $0.65 \text{ kg} \times 550 \text{ broilers}$
 $\frac{357.5 \text{ kg}}{25 \text{ kg}} = 14.3 \text{ bags}$
 $\approx \underline{\underline{14.3 \text{ bags}}}$

20.501 x 10 bags = 205.01 kg

20.501 x 10 bags = 205.01 kg

10.5.2

20.501 x 10 bags = 205.01 kg

20.501 x 10 bags = 205.01 kg
