how to run poultry as co operate

**ACCOUNTS**

There are 4 different accounts that each serve a different purpose for your poultry business as a % of the net profits.

## HOW TO RUN POULTRY FARM AS COOPERATE (BOOK KEEPING)

Record keeping is a very important part of the poultry farm, record all the activities being performed on the farm from day 1 to be able to track problems and their working solutions for influencing future decision making financially and operationally.

1.	Expenses Record	<b>EXPENSES RECORD</b>	You must record your expenses so that you can know how much is being spent.
2.	Feed Record	<b>FEED RECORD</b>  #feed type #date #price #lasting	You need to keep a record of the feed type, cost, day of purchase, how much, how long feed lasts in days.
3.	Vaccine Records	<b>VACCINE RECORDS</b>  #date #vaccine type #dosage	You need to keep records of the vaccines being applied to your birds, the date, type and dosage applied. This helps you relate to the vets when needed.
4.	Drinking Chart	<b>DRINKING CHART</b>  #drink #date #liters	This is a daily record sheet of the drinks the birds are given in a week, e.g plain water on Monday 4.12.23, vitamins on Tuesday, plain water on Wednesday, Thursday day and Friday.

5.	Feed Chart	<div>FEED CHART</div> <div>#feed #date #amount</div>	This records how much feed is being fed to the birds daily all through a week. E.g on Monday 4.12.23 we fed the birds 10kg of chicks mash feed, 15kg chicks mash on Tuesday, etc.
6.	Farm Dairy	<div>FARM DAIRY</div>	You need to have a diary of what goes on at the farm daily. E.g on Tuesday 4.13.23, I saw 2 birds A1 and A13 acting sickly, I moved them out for a few minutes to feed outside and returned them after 2 hours.
7.	Egg Collection Record	<div>EGG COLLECTION RECORD</div> <div>#date #eggs collected #cracked eggs</div>	This records all the eggs collected for each day. E.g on Tuesday 4.12.23, I collected 312 eggs and 12 cracked eggs.
8.	Inventory Record	<div>INVENTORY</div> <div>#date #size #price #quantity</div>	This has all the daily details of the eggs collected in an inventory record/log.
9.	Sales Record	<div>SALES RECORD</div> <div>#date #customer #quantity #unit price #price #sales person</div>	Whenever inventory is in stock, we need to sell and record our sales.
10.	All Records	<div>EXPENSES RECORD FEED RECORD VACCINE RECORD DRINKING CHART FEEDING CHART DAILY DAIRY EGG COLLECTION INVENTORY RECORD SALES RECORD         ACCOUNTS</div>	All these records allow you to track activities on the farm and make informed decisions.
